“EXPERIENCE THE DIFFERENCE”

*DEFINES THE QUALITY, THE STANDARDS, AND THE PROCESS
CANNABIDIOL LIFE GOES THROUGH TO PRODUCE THE
HIGHEST QUALITY CBD PRODUCTS.*

CANNABIDIOL LIFE PHILOSOPHY: “PEOPLE, PLANET, PROFIT.”

We focus on helping **People** first; shown in the quality of our products, safety standards, and educational content. In addition, Cannabidiol Life Has created the “Hemp For Hope Foundation” (a non-profit organization), providing free CBD capsules to those with proven/diagnosed medical conditions.

Planet: Hemp is a renewable, natural resource that will help preserve our planet. Our patented extraction technology allows us to utilize the hemp plant AFTER cannabinoid extraction since our method does NOT destroy the hemp plant (unlike co2 extraction).

Profit: Only when we take care of the former (**People & Planet**) can we, as a company, truly profit.

THE “DIFFERENCE”:

- 1.) **U.S. Patened Extraction Method:** Proven to produce a smoother tasting cbd oil and the capability to extract more Cannabinoids, terpenes, & flavonoids. Cannabidiol life has yet to find a match to OUR patented extraction technology.
- 2.) Removal of all seeds and stems before extraction
- 3.) GMP Certified manufacturing facility
- 4.) USDA Certified Organic Product Line
- 5.) FDA Registered CBD Manufacturer
