

## FROM CONCEPT TO SHELF

**COSMETIC SOLUTIONS** is a leader in the development and manufacturing of scientifically proven, innovative personal care products. For more than 25 years our mission has been 100% customer focused, because the success of our customers is at the very core of everything we do. We create innovative products and fully realized skincare collections for physicians, established and emerging brands in the medical, cosmetic and retail industries worldwide. With a focus on face, body, hair, OTC, and professional use formulations, we create some of the most cost effective, high quality and results-driven products on the market.

## OUR HISTORY

In the late 1980s, world-renowned plastic surgeon Dr. Hilton Becker began developing a unique and natural line of topical treatments for his patients. Through extensive research and clinical testing, Dr. Becker and his brother Mervyn Becker were able to prove the efficacy of their products; most notably rejuvenation and restoration of over-stressed and dehydrated skin.

Word spread rapidly within the medical community of Dr. Becker's research, and the products were soon in high demand by respected practitioners around the world. As a result, Mervyn Becker established Cosmetic Solutions to manufacture Dr. Becker's scientifically formulated products to meet client's Private Label demands. The company has now evolved into one of the highest quality and innovative Private Label/Contract Manufacturing enterprises in the world.

## CAPABILITIES + SUPPORT

We offer a  
**360°**  
approach  
to supporting  
our partners'  
goals with  
unrivaled  
services

- **Scientific Research and Development** From groundbreaking research, to revolutionary manufacturing techniques on our production floor; our team of skilled formulators are consistently improving and expanding our formulation library to achieve the most pioneering and innovational results.
- **Private Label Formulation** Specializing in face, body, hair, professional use and over the counter (OTC).
- **Marketing and Branding Support** Our expert marketers are on the cutting-edge of today's industry trends; allowing us to assist you in developing your vision into a thriving brand.
- **Quality Controlled Manufacturing and Delivery** Environmentally conscious and quality fixated - we create safe, reliable and responsible products.

## OUR PHILOSOPHY

Cosmetic Solution's philosophy is structured around the fundamental notion that all active ingredients contribute toward the efficacy and quality of our products by stimulating, expediting, and influencing the skin's natural rejuvenation processes. This approach ensures that all of our formulas are extremely effective and completely in harmony with the skin - a synergy that has proven to be the most reliable and logical way to combat dermatological concerns.

## CUSTOM FORMULATIONS

With more than 25 years of operational experience, we have accumulated immense formulation proficiency and insight. Thanks to our highly-skilled chemists and in-house laboratory, there is virtually no limit to our formulation capabilities for those clients who are seeking to create something completely unique to their business.

## PRIVATE LABEL/CONTRACT MANUFACTURING SERVICE

Cosmetic Solutions provides all the necessary stages of manufacturing. Thanks to our highly advanced manufacturing capabilities, extensive catalog of formulas and personalized client relationships; our Private Label /Contract Manufacturing service will optimize your Time to Market (TTM) value providing you with superior products positioned for a successful launch.

## OUR FACILITY

Our state-of-the-art manufacturing facility creates and manufactures the highest quality products in the most effective and efficient time possible. Utilizing high-end equipment, backed by an industrious workforce, our manufacturing capabilities are incredibly expeditious and accurate.

## A PARTNERSHIP FOR SUCCESS

Cosmetic Solutions covers all of the steps necessary to establish your brand. From research and development, formulation, product and packaging selection, graphic design, testing and manufacturing, we'll create your unique product line, customized to your exact specifications. Our helpful and insightful team will assist you through all necessary steps, to ensure the finest results that will catapult your brand to success.
