Newborn Salve Unscented

We all take extra care with our newborn babies. This pure, gentle and coconut free Newborn Salve is formulated with only six trustworthy ingredients. We use it for cleansing folds in between baths, preventing and soothing irritations, moisturizing and protecting that new baby skin.

Ingredients:

Vitis vinifera (Italian Grapeseed Oil, Non-GMO) Infused with **Calendula officinalis* (Calendula) and **Glycyrrhiza glabra* (Licorice), **Ricinus communis* (Castor Oil, Cold Pressed), Domestic Beeswax, *Tocopherol* (Vitamin E, Non-GMO). *Organic

Baby Salve Unscented

Tushies aren't the only areas on a baby that need care. Avoid overbathing by using a small amount of Baby Salve to wipe down areas that tend to collect debris and get irritated. Fat little necks, behind ears and knees, and various rolls and folds can be kept healthy with an occasional application of a thin layer of Ora's Amazing Herbal Baby Salve.

Ingredients:

Vitis vinifera (Italian Grapeseed Oil, Non-GMO) Infused with **Calendula officinalis* (Calendula), **Symphytum officinale* (Comfrey), **Plantago major* (Plantain), **Hypericum perforatum* (St. John's Wort), **Arctium lappa* (Burdock), **Thymus vulgaris* (Thyme) and **Glycyrrhiza glabra* (Licorice), **Ricinus communis* (Castor Oil, Cold Pressed), **Cocos nucifera* (Coconut Oil), Domestic Beeswax, *Tocopherol* (Vitamin E, Non-GMO). **Organic*

Sustainable Packaging

We invite you to think about the importance of packaging with regard to sustainability and environmental responsibility, and to take notice of the choices we make at Ora's Amazing Herbal. For example our salves and serums are sold in glass jars, our body butters in 100% post consumer recycled plastic, and our gift boxes and packing materials are all recycled as well. We re-use the inevitable plastic shipping pillows that end up in our facility. We want you to know that we are committed to doing our part.

Thanks and be well,
Ora

Why Ora's Amazing Herbal?

Ora holds degrees in biology and holistic nutrition, so when her daughter developed eczema, she developed her first salve. The rest, as they say, is history. As a mother, Ora is committed to making intentional choices that are supportive of her family's well being. As a family business, we do things the same way. That means our product ingredients are pure, practices are socially and environmentally responsible, and communication is straightforward. Since our first product launched, we have added new products slowly, just a few each year, with the same commitment to our values as in the beginning. We feel good about our products and our business practices, and feel confident that you will too. We are proud to be one of the top skincare options for those of us looking to make effective and conscious choices for ourselves, our families, and for our planet.

Base Oil

In the ways of healers of old, we slowly cold infuse oil with soothing and healing organic herbs for use in all our oil based products. We start with pure, non-GMO, Italian grapeseed oil and then add organic Calendula, Comfrey, Plantain, St. John's Wort, Burdock and Thyme. We allow the infusion to gently age, protected from heat and light in non-plastic containers, for a minimum of 6 weeks. This extracts the healing components and phytonutrients of the herbs into the oil for use. We then use this as our Base Oil for our balms, salves, serums, butters, and oils. No wonder our products are so Amazing!
