★★★★★ Smoothing my stomach

Recently tried this for the first time. Delicious, and inexpensive compared to the smaller bottles. 5 stars!

★★★★★ Good Buy

I like this drink. The price for a 1.5 liter bottle is just slightly more than bottles less than half its size in the supermarket.

★★★★★ Great Discovery

I have had some stomach health issues and a friend recommended Aloe Vera Juice. I discovered this brand at a Korean Restaurant and really enjoyed the taste and felt a difference in my stomach. When I went to a Korean Grocery Store to purchase more for my home I could only find a different brand, which I purchased. Unfortunately, that brand did not taste as good as OKF Farmer's, so I looked it up on Amazon and purchased it. I love all of the flavors and glad to be able to have this drink in my home.

Most refreshing drink in the world. First tried it in Italy during a heat wave. It saved my life. I have ordered this product multiple times. I hide it.

UPDATE: I have ordered this again and again. Sometimes it takes a month to get it. Sometimes it is untrackable. Totally worth the wait. I would give it six stars if I could. Now I order 2 and don't give it another thought until it arrives. It always arrives!

Update: this product went from \$45 to \$62. I still buy it because it is so delicious but, not nearly as often. I am sad

Great flavor for Aloe Vera juice I tried other brands and they are awful. It has some pulp but I like it. I placed the bottle in the fridge because it tastes much better cold. It is worth it to try it.

Pocas Debuts Five-Flavor Berry Juice Drink

Think outside of the box. Why do you think one fruit provides only one flavor? Find five flavors in a berry with Pocas' brand new item, FIVE.

Pocas International is debating its all natural five-flavor omija juice drink at this year's Summer Fancy Food show. Omija, also known as schisandra, means "five-flavor berry" in Korean. The berry gives you five different flavors: sweet, sour, salty, bitter and spicy. Besides its unique taste, it has

long been used as a traditional medicine in East Asia for a variety of ailments. In addition, recent research and studies identify its health benefits as boosting the immune system, liver and kidney function.

FIVE is made in Mun Kyong, South Korea where top quality omija is produced. The drink is 100 percent natural and non-GMO, with no preservatives, no artificial color, no artificial flavors and no artificial sweeteners. It is dairy-free, gluten-free, soy-

free and vegan. Your customers can enjoy five different flavors: Pure Schisandra (Omija), Schisandra & Korean Pear, Schisandra & Mango, Schisandra & Pineapple and Schisandra & Watermelon. The berry's complex flavor combination with natural fruits makes a refreshingly delicious drink.

Pocas International is passionate about delivering premium healthy beverages and specialty foods to its customers with only top-quality products. The mission of Pocas is to study global market trends of healthy

harmony in every sip.
