This is the only pre/probiotic that I have ever tried where I can tell that it helps my gut! I have been struggling with chronic IBS pain and constipation and this finally made me regular! The bottle says to take up to 3 pearls a day, I took two. One with my first meal of the day and another one before I go to bed at night. They are also so great because they are small and easy to take. The bottle that they come in is also very small which makes it easy for me to just throw them in my purse. I love these pearls, I'm on my second bottle!

# We have thousands of five star reviews...

"I've been taking these for about 2 weeks and they have greatly improved my chronic issues with abdominal pain, poor digestion and irregularity. I've taken probiotics for several years and have tried at least 20 different brands with varying strengths, strains etc. and these are by far the most effective I have ever taken, with noticeable results within just a few days. Thank You for a product that actually exceeds expectations!"

- Alpha 001

"As an RN I have recommended these to two of my patients who are presently on antibiotics"

- Chico-chic

"I went from having regular stomach issues and a sensitive stomach to no problems at all."

-Jule

"With my first pearl, I actually felt the difference! Hard to imagine I know."

-ToniAnnie

"I'm serious, these are a GOD send and Earth's Pearl Probiotic & Prebiotic are also for finally finding "a cure" for my IBS-D. Thank you sooo much!!"
