With Head & Heal, you're going straight to the source – we grow, process, and bottle all of our CBD products right on our farm in New York State

Head & Heal Products contain less than 0.3% THC

WHY HEAD & HEAL?

With Head & Heal, you're going straight to the source, we grow, process, and bottle all of our products right on our farm. Transparent.

Effective and affordable product to help people live their best life.

Most other products on the market use hemp imported from foreign countries grown for industrial uses, which results in oil full of impurities and low in CBD.

TESTIMONIALS

This is the only reason I can fall asleep at night.

-Melissa

No more daily headaches to face – thank you.

-Shelby

Struggling with aches and pains today, leaning on CBD to help me through an abbreviated work day.

-Emma

I watched my father sit up again to watch TV instead of being hunched over just listening. He's 82.

-Julie

What's in the bottle?

Two Ingredients:

1. Certified Organic Fractionated Coconut Oil
2. Full Spectrum Hemp Extract

< 0.3% THC

THC, or **tetrahydrocannabinol**, is the chemical responsible for most of marijuana's psychological effects. It acts much like the cannabinoid chemicals made naturally by the body.

Full spectrum oil has shown to be more effective than **broad spectrum (THC free)** in studies due to a wider range of cannabinoids and terpenes that are responsible for the health benefits.

We have two types of cannabinoid receptors in our bodies. THC binds with receptors -- mostly in the brain -- that control pain, mood, and other feelings. CBD works with elements in the body linked to feelings of well-being.

Medical Benefits

People take CBD products to help with everything from

- arthritis
- Crohn's disease
- diabetes
- multiple sclerosis
- childhood epilepsy through adulthood

Helps with

- anxiety, insomnia, & chronic pain.

Altitude Consulting, LLC utilizes NIST traceable Reference Standards and Certified Reference Material to calibrate analytical instruments along with proven analytical methods. The methods are applied in the most ethical manner following good laboratory practice guidelines. The results of this report are based solely on the sample submitted and cannot be reproduced.

HEMP LABORATORY TEST CERTIFICATE OF ANALYSIS

Hemp Analysis - Summary

Tested by: High-performance liquid chromatography with ultraviolet detection (HPLC/UV)

PASSED

Scan to verify at sclabs.com

- 1) Total THC/CBD is calculated using the following formula to take into account the loss of a carbonyl group during decarboxylation step: Total THC = d9THC + (THC-A ÷ 0.877) and Total CBD = CBD + (CBD-A ÷ 0.877).
- 2) As defined by the 2019 Farm Bill, hemp must contain no more than 0.3% Total THC, defined as the concentration of delta-9-tetrahydrocannabinol (d9-THC) post-decarboxylation - see formula above.
- 3) Total Cannabinoids result reflects the absolute sum of all cannabinoids detected.

Additional Testing

Result/Action Limits set by California Code of Regulations Title 16, (Effective date: January 16, 2019, Authority: Section 26013, Business Professions Code, Reference: Sections 26100, 26104, and 26115, Business Professions Code)
